# The Blue Avian Message

Every day focus on becoming more **Service To Others** oriented. Focus on being more Loving and "**Focus on raising your Vibrational and Consciousness Level**" and to learn to Forgive Yourself and Others (Thus Releasing Karma). This will change the Vibration of the Planet, The Shared Consciousness of Humanity and Change Humanity **One Person at a time** (Even if that "One Person" is yourself.). They say to treat your body as a temple and change over to a "**Higher Vibrational Diet**" to aid in the other changes. This sounds to many like a "Hippy Love and Peace" message that will not make a difference. I assure you the "Path" they lay out in "Their Message" is a difficult one. Even on the unlikely chance that these technologies stay "Suppressed", imagine what a world we would live in if everyone made these changes to their selves?

The Blue Avians also gave a warning with this "Message". They had tried to deliver this message "**Three Other Times**" and it had been distorted by humanity. They made it "very clear" that this information was **NOT to become a "Cult or Religious Movement"** nor was I to put myself (my "ego") before the "Message" or elevate myself to a "Guru" status. Anyone who does so should be avoided and held accountable, including myself.

# Ra's Previous Attempts at Contact

- 1.5 Ra "made contact with ...**Egyptians** [11,000 years ago].
- 23.6 "The [center] of our efforts was [seeing] **sufficient calling** to attempt to walk among your peoples as brothers "
- We laid this plan before the **Council of Saturn**... we **materialized, in physical-chemical complexes** representing as closely as possible our natures... [to **serve as**] **teachers** of the **Law of One**
- "We discovered that **for each word** we could utter, **there were thirty impressions** we gave by our very being, which **confused those entities** we had come to serve"
- 1.5 "the priests and peoples of that era quickly distorted our message, **robbing it of the compassion** with which unity is informed by its very nature. Since it contains all, it cannot abhor any."

# The Nature of Oneness

- The **Universe** is like a **Daydream** of the Creator
- 4.20 “The Law of One ... may be approximated by stating that **all things are one**, that there is no polarity, no right or wrong, no disharmony, but only identity. **All is one**, and that one is love/light, light/love, **the Infinite Creator.**”
- 10.14 “**The universe is one being.** When a [you view] another... **see the Creator.** This is an helpful **exercise.**”

# The Loving Universe & Logos/Galaxy Beginnings

- 19.12 “With the **primal distortion of free will**, each galaxy developed its own **Logos [“or Love”]**. This Logos has complete free will in determining **the paths of intelligent energy** which **promote** the **lessons** of each of the **densities** given the conditions of the **planetary spheres** and the **sun bodies**.”
- 13.13 Ra: The galaxy and all other things of material of which you are aware are products of **individualized portions** of intelligent infinity. ...Each **universe** ... **individualized** to a focus becoming, in turn, **co-Creator** and allowing **further diversity**, thus creating further intelligent energies regularizing or causing natural laws to appear in the vibrational patterns of what you would call a **solar system** [with its own] natural laws.

# The Cosmic Web & Intelligent Energy

- 15.4 “Rapid aging occurs ... due to an ongoing imbalance of receptor web complex in the etheric portion of the energy field of this planet. The [thoughts] of your peoples have caused the energy streamings to enter the planetary magnetic atmosphere, if you would so term this web of energy patterns, in such a way that the proper streamings are not correctly imbued with balanced vibratory light/love from the, shall we say, cosmic level of this octave of existence.”
- 15.9 “Love, creating light, becoming love/light, streams into the planetary sphere according to the electromagnetic web of points or nexi of entrance. These streamings are then available to the individual who, like the planet, is a web of electromagnetic energy fields with points or nexi of entrance.”
- 17.18 “The gate to intelligent infinity can only be opened when an understanding of the instreamings of intelligent energy are opened unto the healer. These are the so-called Natural Laws of your local space/time continuum and its web of electromagnetic sources or nexi of instreaming energy.”

# The Electric Universe & Our Sun

- 39.4 "in the beginning of the creations set up by **each Logos**, there are **created the complete potentials, both electrical**, in the sense of the one you call [Dewey Larson], **and metaphysical.**"
- 41.4 "the **sun body** may [be seen] **physically** to be a large body of gaseous elements undergoing the processes of fusion and radiating heat and light.... **Metaphysically**, the sun **achieves a meaning to fourth through seventh** density according to the **growing abilities** of entities in these densities **to grasp the living** creation and co-entity, or **other-self, nature** of this sun body.
- 41.7 "The **sub-Logos [Sun]** is of the **entire octave** and is not that entity which experiences the learning/teachings of entities such as yourselves."

# Evolution Through “Densities” of Consciousness

- 16.51 **The term density** is a, what you would call, **mathematical** one. The closest analogy is that of **music**, whereby **after seven notes** on your western type of scale, if you will, the eighth note begins a new **octave**.
- 32.12 “The **nature of vibration** is such that it may be seen as having mathematically **strait or narrow steps**. These steps may be seen as having **boundaries**. Within each boundary there are infinite gradations of vibration or color. However, **as one approaches a boundary**, an **effort** must be made to **cross** that boundary.”
- “[The Logos] begins with first density which is **the density of consciousness, the mineral and water life upon the planet learning from fire and wind the awareness of being**. This is the first density.”

# The Seven Densities Explained

1. Water/Fire/Earth/Air
2. "Growth" - Plant/Animal, less often mineral/crystals/places
3. Intelligent self awareness - "The Choice" <- We are here (Space/Time)
4. Governed by the Laws of Love or Understanding <- Almost here
5. Governed by the Laws of Light or Wisdom
6. Beings vibrating with the "Law of One" (+Higher Self) <- Ra / Blue Avians
7. Law of Foreverness – All of time becomes seen as One Moment (Totality)

# Choosing Love to Win the Game

50.7 Let us give the **example** of the man who **sees all the poker hands**. He then knows the game. It is but **child's play to gamble**, for it is no risk. The other hands are known. The possibilities are known and **the hand will be played correctly but with no interest**.

...  
Let us re-examine this metaphor and multiply it into the **longest poker game** you can imagine, a **lifetime**. The **cards** are **love, dislike, limitation, unhappiness, pleasure**, etc. They are **dealt** and **re-dealt** and re-dealt **continuously**. You may, during this incarnation **begin** — and we **stress begin** — to **know your own cards**. You may begin to find the love within you. You may begin to balance your pleasure, your limitations, etc. However, your only indication of other-selves' cards is to look into the eyes.

You **cannot remember** your hand, their hands, perhaps even the rules of this game. This **game can only be won** by those who lose their cards in the **melting influence of love**; can only be won by **those who lay** their **pleasures, their limitations, their all** upon the table face up and say inwardly: "All, **all of you players**, each other-self, whatever your hand, **I love you**." This is the game: to **know**, to **accept**, to **forgive**, to **balance**, and to **open the self in love**. This cannot be done without the **forgetting**, for it [**the game**] would carry no weight in the life of the mind/body/spirit beingness totality.

# Blue Avians / Ra's Karmic Parachute

- 22.26 Ra: "we are one of the naïve members of that Confederation and are **still attempting to recoup the damage** for which we feel responsibility. It is our duty as well as honor to continue with your peoples, therefore, **until all traces of the distortions** of our teach/learnings [of the Law of One] have been embraced by their opposite distortions, and **balance achieved.**"
- 1.1 "We will continue in this until your **cycle is appropriately ended**. If not this one, then the next"

# Solar System History & Grid System

# Role of Collective Consciousness In The Shift / Solar Events

17.1 "Your time/space continuum has spiraled your planetary sphere and your, what we would call galaxy, what you call star, into **[fourth density] vibration**. This will cause the planetary sphere itself to electromagnetically realign its vortices of reception of the instreaming of cosmic forces expressing themselves as **vibrational webs** so that the Earth will thus be fourth-density magnetized, as you might call it.

This is going to occur with some inconvenience, as we have said before, due to the energies of **the thought-forms of your peoples** which **disturb** the orderly constructs of **energy patterns** within your Earth spirals of energy which increases **entropy and unusable heat**. This will cause your planetary sphere to have some **ruptures in its outer garment** while making itself appropriately magnetized for fourth density. This is the **planetary adjustment**."

# The Higher Self & Mandela Effect

- 36.4 “parallel existences can be programmed by the Higher Self, given the information available from the mind/body/spirit complex totality regarding the probability/possibility vortices at any crux”
- 36.2 “The mind/body/spirit complex totality is as the shifting sands and is in some part a collection of parallel developments of the same entity. This information is made available to the Higher Self aspect ... in order to better aid in what you would call future life programming.”
- 36.3 “The more in balance an entity becomes, the less the possibility/probability vortices may need to be explored in parallel experiences.”
