

# The Blue Avians & The Law of One

## Week 2: The Great Experiment & ET Confederations

COREY GOODE ONLINE COURSE

# Overview of Week 2

- **Corey's Experiences** interacting with higher density beings
- The loving plan of the Logos (Galaxy) for evolution through a **great experiment**
- **ET Confederations** & assistance
- The Super Federation & the role of **genetic programs** in the great experiment
- The nature of "**the calling**" & **the Higher Self** when contacting higher consciousness beings

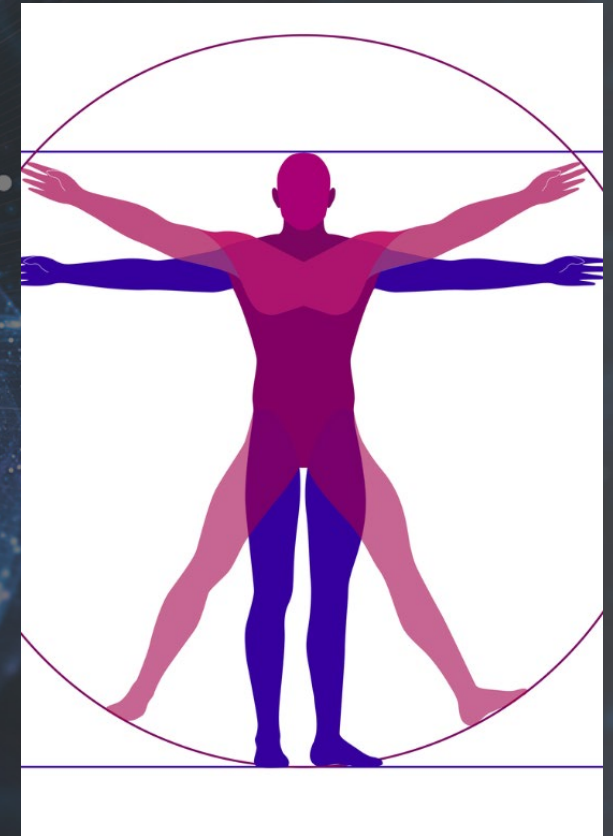

# Experiences Interfacing With Higher Density Beings

- Secret Space Program: Intruder Intercept & Interrogation
- Super Federation Entities
- Mayan Breakaway Group
- Blue Avians
- Anshar / Ka-Aree
- Draco Reptillians

# The Human/Bipedal Blueprint

- 90.12 “We are **not entirely sure** why our Logos and several neighboring Logoi ... chose the **bipedal, erect** form of the **second-density apes** to invest. [We **hold the opinion** that] our Logos was interested in further intensifying the veiling process by offering ... the near complete probability for the **development of speech** taking complete precedence over concept communication or **telepathy**. ... [the] **opposable thumb** was looked upon as an excellent means of **intensifying the veiling** process so that rather than rediscovering the powers of the mind the third-density entity would ... be drawn to the making, holding, and using of **physical tools**.”

# Local Confederation in Ra Material

- 6.24 I am one of the members of the **Confederation of Planets in the Service of the Infinite Creator**. There are approximately **fifty-three civilizations...** in this Confederation...
- 16.33 **“There are many Confederations.** This Confederation works with the planetary spheres of **seven of your [star systems]**, and is **responsible for the callings** of the densities of these [star systems].”
- 19.7 **“The Confederation... is composed** of many of those in **other densities, in your own density, within your planetary sphere, and within the inner or angelic realms.** Each of those ... developing a **social memory complex**, and then dedicating this social memory complex to the singular **service to the One Creator**, may join the Confederation”

# The Super Federation & Genetic Farmer Races

# Examples of Genetic Changes by ETs

- 14.3 “In the case of your planetary sphere the process was interrupted by **those who incarnated here** from the planetary sphere you call **Mars**. They were adjusted by **genetic changing** and, therefore, there was some difference which was of a **very noticeable variety** rather than the **gradual raising of the bipedal forms** upon your second-density level to third-density level.”
- 18.20 “The **Yahweh group** worked with those of the planet you call **Mars** seven five, seventy-five thousand [**75,000**] **years ago** in what you would call the **cloning process**. ”

# Nature of DNA & Jumps in Evolution

- 65.19 “the **genetic properties** of the **connection between the mind/body/spirit complex and the cellular structure of the body** is different for third density than for third/fourth density... **Wanderers volunteer** for third-density genetic or **DNA connections** to the mind/body/spirit complex. **The forgetting process can be penetrated** to the extent of the Wanderer remembering what it is and why it is upon the planetary sphere. However, it would be an infringement if Wanderers penetrated the forgetting so far as **to activate the more dense bodies** and thus be able to live ... in a **god-like manner**. This would not be proper for those **who have chosen to serve**.
- The **new fourth-density entities** which are becoming able to demonstrate **various newer abilities** are doing so as a **result of the present experience**, not as a result of memory. There are always a few exceptions...”

# The "Grand Experiment"

# The “Great Experiment”- Before the Veil

- 83.20 “Prior to the great experiment a mind/body/spirit was capable of controlling the pressure of blood in the vein, the beating of ... the heart, the intensity of ... pain, and all the functions now understood to be involuntary or unconscious.”
- 83.10 “...the societies before veiling did not depend in any case upon the intentional enslavement of some for the benefit of others, this not being seen to be a possibility when all are seen as one. There was, however, the requisite amount of disharmony to produce various experiments in what you may call governmental or societal structures.”
- 82.22 “...Consider ... the tendency of those who are divinely happy... to have little urge to alter or better their condition... There is the possibility of love of other-selves and service to other-selves, but there is the overwhelming awareness of the Creator in the self. The connection with the Creator is that of the umbilical cord. The security is total. Therefore, no love is terribly important; no pain terribly frightening; no effort, therefore, is made to serve for love or to benefit from fear.”

# The Great Experiment – After the Veil

- 79.11 Don: The Logos... first devised the tool of **separating the unconscious from the conscious** during what we call physical incarnation to achieve its objective [Ra: This is Correct]
- 79.12 Questioner: Then from that statement I also assume that **many other tools were conceived** and used after the first tool of the **so-called veil**. Is this correct?  
Ra: I am Ra. There **have been refinements**.
- 90.18 “It is correct that the Logos designed Its experiment to attempt to achieve the **greatest possible opportunities for polarization** in third density. [**Warfare**] is an **interesting result** which is apparently concomitant with the **tool-making ability**. The choice of the Logos to use the life-form with the **grasping thumb** is the decision to which this type of **warfare may be traced**.

# The Influence of the Orion Group / Draco

- 11.18 “[The **Orion Service-To-Self Entities** make **contact**] with those **who call**. Those then upon the planetary sphere act much as do you to **disseminate the attitudes and philosophy of their particular understanding of the Law of One** which is **service to self**. These become the **elite**. Through these, the attempt begins to create a condition whereby the remainder of the planetary entities are **enslaved by their own free will**.”
- 53.17 “If there is **fear and doom**, the contact was quite likely of a **negative nature**. If the result is **hope, friendly feelings**, and the **awakening of a positive feeling of purposeful service to others**, the marks of **Confederation contact** are evident.”

# The Local 52 Star Cluster Delegates: “The Witnesses” Gathering

# The Council of Saturn & “Guardians”

- 6.8 “This Council is located in the **octave**, or **eighth dimension**, of the planet **Saturn**, taking its place in an area which you understand in third-dimensional terms as the rings.
- 7.9 “The **members of the Council** are representatives from the **Confederation** and from those vibratory levels of your **inner planes** bearing responsibility for your third density... [In number they are] **nine**. That is the **Session Council**.  
To back up this Council, there are **twenty-four entities** which offer their services as requested. These entities faithfully watch and have been called **the Guardians**.  
[The **council offers**] **aid** to those who are unsure how to aid the social memory complex requesting aid in a way consonant with both **the call, the Law**, and the **number of those calling** (that is to say, sometimes the **resistance of the call**)

# The Muhammad Accords & Free Will

- 23.5 [When appearing in skies **over Egypt**] We allowed visibility because **it did not make any difference**.
- 22.21 [Other Confederation Entities have appeared] to **Atlanteans** ... to encourage and inspire studies in the **mystery of unity**.
- 23.10 “we would perhaps be in the position of paradox in that **as one saw an illumination**, we were what you call **successful**, and as **others became more sorrowful and confused**, we were **failures**. These are your terms. We persist in seeking to serve.”
- 53.3 [The **Confederation in recent times**] uses **symbols** ...[to] give the message of **love and hope**....[and] message **content** which speaks **not of doom but of the new dawning age**.

# The Types of “Harvesters” Stewarding Over the Upcoming Ascension

51.1 The **first level** is planetary and that which may be **called angelic**. This type ... includes the **higher self of an entity** and those **inner plane entities** which have been attracted to this entity through its inner seeking.

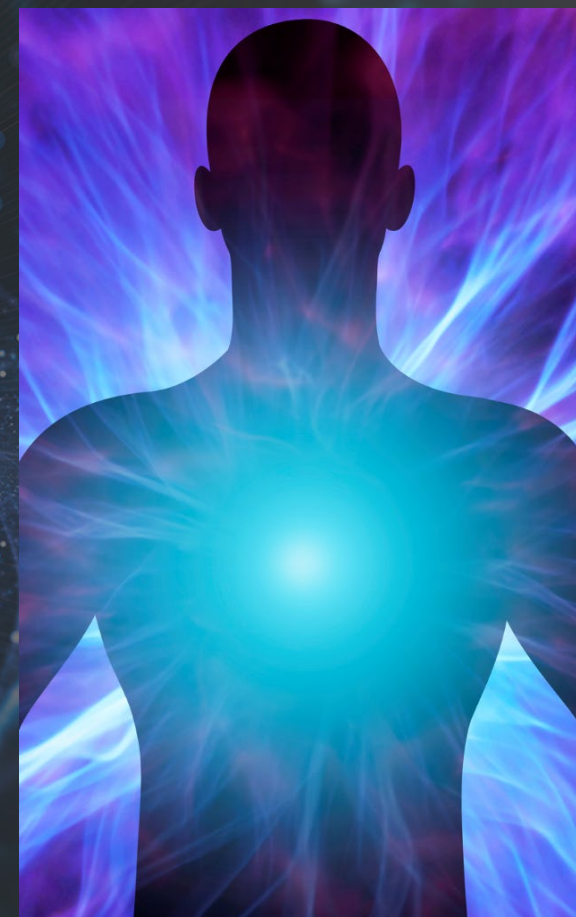

The **second class** ... are those of **the Confederation** who have the honor/duty of standing in the small places at **the edge of the steps** of light/love so that those entities being harvested will not, **no matter how confused** or unable to make contact with their higher self, **stumble and fall away for any reason** other than the **strength of the light**. These Confederation entities catch those who stumble and set them aright so that they may continue into the light.

The **third group** is ... **the Guardians**. This group is from the **octave above** our own and serves ... as **light-bringers**. These Guardians provide the precise emissions of light/love in exquisitely fastidious disseminations of discrimination so that the precise **light/love vibration of each entity** may be ascertained.

# The Calling & Unseen Assistance

- 21. 17 “There dwell **within the Confederation** planetary **entities** who from **their planetary spheres** **do nothing but send love and light** as pure streamings **to those who call**. This is not in the form of conceptual thought but of **pure and undifferentiated love.**”
- 12.26 “**the Brothers and Sisters of Sorrow** move towards a **calling of sorrow**. These entities are **from all reaches of the infinite creation** and are bound together by the **desire to serve** in this distortion.”
- 7.7 [The **calling of people on Earth**] constitutes a **great calling** which **we of all creation feel and hear** as if our own entities were distorted towards a **great and overwhelming sorrow**. It **demands our service.**

# The Higher Self & ET/Angelic Contact

- 36.2 **The Higher Self... aids** the entity in achieving **healing** of the **experiences** which **have not been learned properly** and **assists ...** in further **life experience programming**  
[The Higher Self has] a **very firm grasp** of the **lessons** to be learned in this density
- 70.11 [The Higher Self] **protects when possible** and **guides when asked**, but the **force of free will** is **paramount**.
- 37.6 "you may **see your self, your higher self,** and your mind/body/spirit complex **totality** as **three points in a circle**. The **only distinction** is that of your **time/space continuum**. All are **the same being**."

# Wanderers & Activation by Contact

- 16.59 “Wanderers become completely the creature of third density... The only difference occurs in the spirit complex which, if it wishes, has an armor of light, if you will, which enables it to recognize more clearly that which is not as it would appropriately be desired by the mind/body/spirit complex. This is not more than a bias and cannot be called an understanding.”
- 36.17 ...the positively oriented Wanderer chooses to hazard the danger of the forgetting in order to be of service to others by radiating love of others. If the forgetting is penetrated the amount of catalyst in third density will polarize the Wanderer with much greater efficiency than shall be expected in the higher and more harmonious densities.
- 53.8 [Contact experiences can awaken] the desire to seek the truth of [the] occurrence... The feeling of being awakened or activated is the goal of this type of contact. The duration and imagery used varies depending upon the subconscious expectations of the Wanderer which is experiencing this opportunity for activation.

# Questions & Answers

# Accessing the Recordings

- Recordings become available in a day
- Visit AscensionWorks.TV and click on "My Account"
- Email [info@ascensionworks.tv](mailto:info@ascensionworks.tv) if you are having any issues

Thanks for Participating!
