Earth's Shift into Higher Energy

- 17.1 “The fourth density is a **vibrational spectrum**. Your time/space continuum has **spiraled** your **planetary sphere** and [sun] into this vibration. This will cause the planetary sphere itself to electromagnetically **realign** its [vibrational webs] so that the Earth will thus be fourth-density magnetized, as you might call it.”
- 40.10 “The **first harbingers** of this were approximately forty-five of your years ago [1936], the energies vibrating **more intensely** through the **forty-year period** preceding the final movement of vibratory matter ... through the **quantum leap**”

The Purpose of the “Harvest” Wording

- Matthew 13:29 “in gathering the weeds you would uproot the wheat along with them. 30 Let both of them grow together until the harvest... 39” ...the harvest is **the end of the age**, and the reapers are angels. 40 Just as the weeds are collected and burned up with fire, so will it be at the end of the age. 41 **The Son of Man will send his angels**, and they will collect out of his kingdom all causes of sin and all evildoers, 42 and they will throw them into the furnace of fire, where there will be weeping and gnashing of teeth. 43 Then The Righteous Will Shine Forth Like The Sun in the kingdom of their Father.” (NRSV)
- 6.14 “Those who, **finishing a cycle of experience**, demonstrate various grades of ... understanding of thought and action, **will be separated by their own choice** into the vibratory distortion most comfortable to their mind/body/spirit complexes. This process is **guarded or watched** by those **nurturing beings** who, being very close to the Law of One in their distortions, nevertheless have the distortion towards active service.”

The time of “Harvesting” is to gauge “Harvestability” for Graduation

- 63.20 “**Don**: Now as this transition continues into fourth-density activation, in order to inhabit this fourth-density sphere it will be necessary for all third-density physical bodies to **go through the process which we refer to as death**. Is this correct? **Ra**: I am Ra. This is correct.”
- 48.7 “(48.7) [Upon death, at the **end of each planetary cycle**,] we have the anomaly of harvest... In harvest the entity will then **transfer its indigo body into violet-ray manifestation** as seen in true-color yellow. This is for the purpose of gauging the harvestability of the entity.”
- 10.9 “the first step of the [totality/beingness] is to place its mind/body/spirit complex distortion in **the proper place of love/light**. This is done to ensure proper healing of the complex and eventual attunement with the totality/beingness complex. This takes a very variable length of your time/space. After this is accomplished **the experience of the cycle is dissolved** and filtered until **only the distillation of distortions in its pure form** remains. At this time, the harvested [beingness] evaluates the density needs of its beingness and chooses the more appropriate new environment for either a repetition of the cycle or a moving forward into the next cycle. **This is the manner of the harvesting**, guarded and watched over by many.”

The Cyclical Nature of Ascension/Harvest

- 11.8 “Penetration into the **eighth or intelligent infinity level** allows a mind/body/spirit complex to **be harvested if it wishes** at any time/space during the cycle.”
- 6.15 **One major cycle** is approximately **[25,000]** of your years. There are **three cycles of this nature** during which those who have progressed **may be harvested**. At the end of three major cycles, **[75–76,000]** of your years, **all are harvested regardless of their progress**, for during that time the planet itself has **moved through the useful part** of that dimension and **begins to cease being useful for the lower levels** of vibration within that density.
- 20.27 “It is... more toward the median or mean, shall we say, of third-density developments throughout the one infinite universe that there be a **small harvest after the first cycle**; the remainder having significantly polarized, the **second cycle having a much larger harvest**; the remainder being even more significantly polarized, the third cycle culminating the process and the harvest being completed.

Earth's Slow Progress towards "Harvestability"

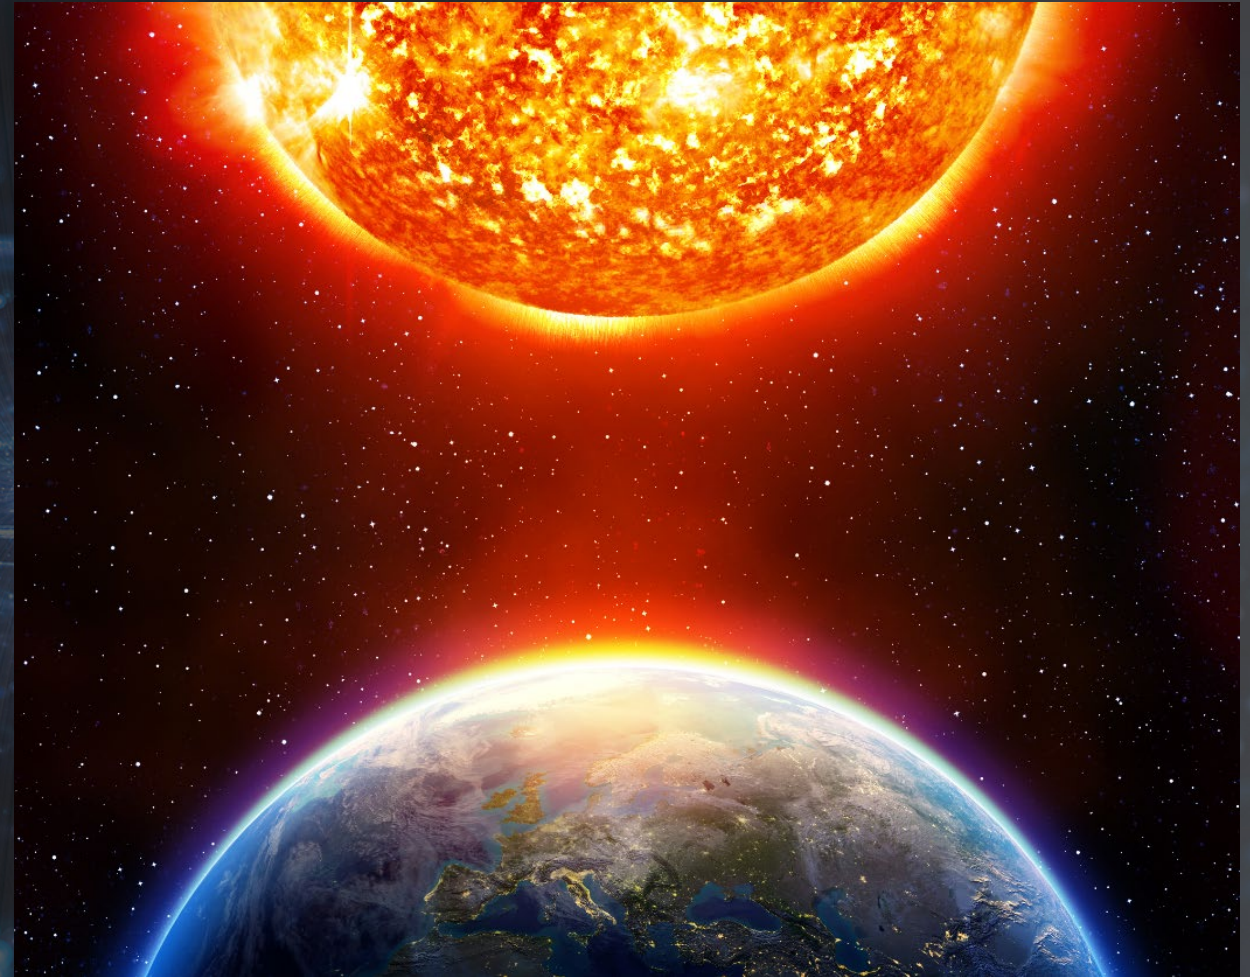

- 22.16 Questioner: Well, then, **as the cycle terminated 25,000 years ago**, what was the reaction of the Confederation to **the lack of harvest?**
Ra: I am Ra. **We became concerned.**
- 13.23 "the thought-forms of your people during this transition period are such that the mind/body/spirit complexes of both individual and societies are **scattered throughout the spectrum** instead of becoming able to grasp the needle, shall we say, and **point the compass** in one direction. Thus, the entry into the vibration of love, sometimes called by your people the vibration of understanding, is **not effective** with the **present societal complex...**"

The Perpetual Childhood

- 20.25 Those entities which have, in some way, learned/taught themselves the appropriate distortions for rapid growth can now work within the **confines of the shorter life span**. However, the **greater preponderance** of your entities find themselves in what may be considered a **perpetual childhood**.
- 17.33 To attain **fifty-one percent dedication to the welfare of other-selves** is as difficult as attaining a grade of five percent dedication to other-selves. The, shall we say, **sinkhole of indifference** is between those two"
- 42.5 "**Balance is not indifference** but rather the observer **not blinded** by any **feelings of separation** but rather **fully imbued with love.**"

What do we Experience During the Solar Flash?

- Corey: Programs revealed **effect of energies** on people
- Corey: Solar flash "**locks in**" a positive or negative timeline
- Mike: The intensity of the energy sounds like the "**quantum leap**" which Ra refers to which aligns with the time of "Harvest"

Clarifying the “300,000” Humbling Figure

- 48.7 “The important thing for harvest is the harmonious balance between the various energy centers [Chakras] of the mind/body/spirit complex.” [and Heart Center Activation]
- 17.1 “Those who remain in fourth density upon this plane will be of the so-called positive orientation (Note: Does not say WHEN). Many will come from elsewhere, for it would appear that with all of the best efforts of the Confederation, which includes those from your peoples’ inner planes, inner civilizations, and those from other dimensions, the harvest will still be much less than that which this planetary sphere is capable of comfortably supporting in service.”

Early Effects of 4th Density Energies

- 40.9 Q: Has the **vibration of the basic, of the photon**, of all our particles **increased in frequency already**?
Ra: This is correct. It is this influence which has begun to cause **thoughts to become things**. As an example you may observe the thoughts of anger becoming those cells of the physical bodily complex going out of control to become what you call the cancer.
- 17.1 “You will find a **sharp increase in [people with 4d energy] potentials**. ... There will also be a **sharp increase in the short run of negatively oriented** or polarized [people] and **social complexes**, due to the **polarizing conditions** of the sharp **delineation between 4th-density characteristics** and 3rd density self-service orientation.”

Implications of the “Mixed Harvest”

- 65.13 “[Through the Universe] approximately 10% [of harvests] are negative; approximately 60% are positive; and approximately 30% are mixed with nearly all harvest being positive. In the event of mixed harvest it is almost unknown for the majority of the harvest to be negative. When a planet moves strongly towards the negative there is almost no opportunity for harvestable positive polarization.”
- 66.29 The negative harvest is one of intense disharmony and the planet will express this.
- 65.15 “In the event of mixed harvest there is nearly always disharmony and, therefore, added catalyst in the form of your so-called “Earth changes.”

Physical Earth Changes

- [10.15, 21.27, on sinking of Lemuria] : “[Lemuria] was an helpful and harmless place which was washed beneath the ocean during a readjustment of your sphere’s tectonic plates through no action of their own.” ... “There is a confluence [merging] of energies at the ending of a major cycle. This encouraged what was already an inevitable adjustment in the movement of the surfaces of your planetary sphere.”
- Corey: Atlantis tidal waves flash freeze was triggered by solar event
- Much evidence of animals moving inland before tsunamis & detect earthquakes
- 1.9 “[The coming planetary] changes are very, very trivial.”

The 20 Degree Pole Shift Corroboration

- Corey at 19:27 in "Surviving the Transition" mentioned Earth's axis tilt of "maybe 20 degrees" and motioned a tilt to the right
<https://youtu.be/k8K4h4qKAVc?t=1161>
- 59.24 Q: When the planetary axes realign, will they realign 20° east of north to conform to the green vibration?
There is every indication that this will occur. We cannot speak of certainties but are aware that the grosser or less dense materials will be pulled into conformation with the denser and lighter energies which give your Logos its proceedings through the realms of experience.
- 2.6 "The proper alignment is the head pointed twenty degrees north-by-northeast. This is the direction from which the newer or New Age distortions of love/light, which are less distorted, are emanating from, and this instrument will find comfort therein. This is a sensitive instrument..."

The Transition Period AKA “Thousand Years of Peace”?

- 40.8 There are at this space/time nexus **beings** incarnate which have **begun fourth-density work**. However, **the third-density climate** of planetary consciousness is **retarding the process**. At this particular nexus the possibility/probability vortices indicate somewhere **between 100 and 700** of your **years** as **transition period**. This cannot be accurate due to the volatility of your peoples at this space/time.
- 63.27 “the **creation of green-ray density bodily complexes** ... will be **gradual** and will take place **beginning** with your **third-density type** of **physical vehicle** and, through the means of bisexual reproduction, become by evolutionary processes, the fourth-density body complexes.”

Later effects of 4th Density Energies

Remembering the Value of Trauma

- 34.14 [In War] One may **polarize very strongly** [towards Love] by expressing the **principle of universal love** at the total **expense of any distortion** towards involvement in **bellicose actions**. In this way the entity may become a **conscious** being in a **very brief span** of your time/space. This may be seen to be what you would call a **traumatic progression**. It is to be noted that among your entities a **large percentage of all progression** has as catalyst, **trauma**.
- 18.5 The proper role of the entity is in this density to experience all things desired, to then **analyze, understand, and accept these experiences**, distilling from them the love/light within them. Nothing shall be overcome. **That which is not needed falls away**. The orientation develops due to analysis of desire.

Best Way to be of Service to Others

- 17.30 “[Specifically] the best way for each seeker in third density to be of service to others is unique to that mind/body/spirit complex. This means that the mind/body/spirit complex must then seek within itself the **intelligence of its own discernment** as to the way it may best serve otherselves. This will be different for each.”
- “[Generally] The best way of service to others **is the constant attempt to seek to share the love of the Creator** as it is known to the inner self. This involves **self knowledge** and the ability to **open the self to the other-self without hesitation**. This involves **radiating that which is the essence or the heart...**”
- 17.2 “[In helping others,] It is only possible to make catalyst available in whatever form, the most important being the **radiation of realization of oneness with the Creator** from the self”
- 18.6 “it is a **delicate matter** to be of service, and **compassion, sensitivity,** and an **ability to empathize** are helpful in avoiding the distortions of **man-made intelligence and awareness**”
