

The background is a dark blue gradient with a subtle pattern of white dots. Overlaid on this are several faint, light blue circular diagrams. These diagrams consist of concentric circles, some with dashed lines, and radial lines with degree markings. The markings include 40, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, and 260. Some circles have arrows indicating a clockwise direction.

# THE POWER OF LOCAL COMMUNITY

- People break out of their shells when around other **like minded individuals**
- Becoming **comfortable talking** about the “crazy” stuff **breaks down programming** and opens many potentials
- Doing activities in the **physical world** attracts attention
- Greater inspiration possible though **radiant friends (starseeds)**
- Exponential power in numbers

# FINDING FRIENDS FOR NETWORKING

- Check [meetup.com](https://www.meetup.com) first and visit various group events to get connected
- Check online and local community **event boards** for interesting events to attend
- Search creatively for local new age centers, **healing centers**, spiritual shops, and even open minded churches, and check for flyers of other groups and meetings happening
- **FIND MORE FRIENDS LIKE YOU IN YOUR AREA**
- Have at least 1 or 2 friends who will for sure attend your first group meetings to feel confident starting

# RAISE THE TOPICS CREATIVELY WITH OTHERS

- Ask others about **their journey** of awakening, see what comes up
- Ask others about what they consider to be their most profound **spiritual experiences**
- Let others know that the **ET subject** had a role in your own awakening (topic dropping)
- Ask if others have heard about Gaia.com or specific researchers
- Eventually **express your interest** in starting a local ET Disclosure group (or any other type) – if none are existing already
- Mention plans to follow up, and **exchange contact info**

# DECIDE WHAT YOU WANT TO CREATE

- **Talk** with friends about **creating a group**, their interests for it
- Talk about what you want to **achieve** as a group, and **why**
- Pick a title for the group, I chose “**ET Disclosure and Contact**” - others chose “Full Disclosure Now” or “Meet Earth’s Cosmic Neighbor’s”
- Decide on the **focus of your meetings**: sharing experiences and stories, sharing knowledge, discussing current events or books?
- Remember that **you can pivot** and try out more ideas **AFTER your circle grows**

# STARTING A GROUP FORMALLY

- **Meetup.com is still the best way to attract people** due to large numbers of seeking souls using meetup.com to reach out to their community
- Mike created **NewEarth.Network** as a free alternative to Meetup, as a supplemental option – (vastly smaller number of users in 2018)
- Write a COMPLETE and concise **description** of what you are wanting to achieve.
  - \*\* Post links to you favorite **EVIDENCE resources** as the Disclosure Project ( <https://disclosurecolorado.org/evidence> ) - let's people know you take it seriously
  - \*\* Mention your **spiritual intentions**, your desire to push consciousness forward
- Consider waiting for 25+ meetup.com members **before** hosting an event, although you can post events **well in advance** (Many people typically join quickly if your **categories** are **selected broadly**: Consciousness, Spirituality, UFO, etc)

# HELP WITH OTHER GROUPS TO EXPAND CIRCLE

- If other similar groups exist to what you are wanting, but no “ET Disclosure” discussions are happening, **propose hosting a meeting or giving a presentation** as a part of that existing group
- Take on responsibility to be a **consistent** ET Disclosure meeting facilitator if no one else seems to have taken up the role
- Always be seeking to **network with other groups** and expand your connections amicably

# FIND GOOD PUBLIC PLACES TO MEET

- Generally avoid starting out **meeting at homes** or if possible, but don't rule it out
- Find a room that supports **at least 8** people for your first meeting, **expect half of RSVP'd new people to not even show up!** Never take it personally!
- **What are other groups doing, where do they meet?** Check groups past events going back a whole year if necessary
- Remember that public facilities **often have websites** that make reserving rooms VERY convenient – you can also just **call up most places**
- Check websites of **restaurants** and **coffee shops** about reserving spaces
- Check websites of **community centers, libraries, churches, schools** and universities
- Your local **parks** department should be able to tell you which parks have picnic areas
- Your local Chamber of Commerce or Tourism Board may have lists of meeting spaces available for would-be conference organizers

# NEVER UNDERESTIMATE THE WISDOM OF OTHERS

- **Ask people** who have clearly been to other group meetings **WHAT they like** to see and **WHERE they like** to meet
- Expect the **unexpected feedback**, there might be much better ways of doing things than you thought
- People who are older are often more experienced with the area and always remember to ask for specific types of feedback: **venue, times and days, frequency, meeting format and length, ease of parking**

# TYPES OF MEETINGS – LOTS OF OVERLAP

- Specific presentation **topics**
- **Discussion** group – everyone is in focus
- **Meditation** periods
- **Multiple presentations** on a topic
- **Split** up time 50/50 between presentation and discussion
- Watching a **video** to discuss
- Group **activities** – ice breakers, games, healings/readings, etc

# MEETING FORMAT RECOMMENDATIONS

- **Open discussion groups are often easiest**, less preparation needed
- Monthly group meetings are always acceptable, weekly meetings are almost always eventually draining
- People need to feel comfortable: Ensure **clear information** is given about **parking**, clear information about **any need for donations** (Free meetings are preferable especially at the beginning)
- **2 hour meetings** are around the max people are comfortable with, **1 hour** is often not enough
- **Weekday evenings** work best, **Sunday afternoons** work well too

# LEADING A DISCUSSION GROUP

- **DON'T STRESS THE CONTENT!** People always have enough to share on topics that they **can't normally discuss** with friends or family.
- Plans should be able to **fly out the window** if it feels right
- **Intuition is key** – the energy present is often strongly orienting somewhere
- **Come with questions** to ask. Answer them yourself first if you have to.
- Example questions: start asking “**What draws you** to the group?” and “**What interests you** about the UFO subject?” early on is always helpful to get people to open up, and “What have been **your experiences**?” for those comfortable

# INVITING OTHERS TO SPEAK/SHARE/PRESENT

- Invite people you know may be good presenters through **private communication**
- Make sure they have had a little **experience – or you trust them**
- Send an **email** to the **whole group** to invite speakers/presenters – but **don't get anyone's** hopes up that you will necessarily give everyone the floor until you are **ready to commit** to their speaking slot
- Make sure **donation language is clearly discussed** with those speaking – they need to know how money is flowing so they don't feel you are taking advantage

# SUSTAINING INTEREST

- **Staying connected** with aware friends makes it easy to stay interested in maintaining disclosure groups
- Plan **creative activities** and events, beyond the usual activities, from time to time
- Make sure **others are inspired** to by new information and personal connections that gatherings facilitate
- Share **what excites you**, and always ask others to share what they are interested or researching also – **your energy** makes a huge difference
- **Learn and teach** (continually) about your research and relevant current events

# WATCH FOR A CORE GROUP TO FORM

- Eventually try **small meetings** in homes, watch Disclosure information together, host meditation gatherings and see **who keeps coming**
- Eventually, see who has **the most interest in helping** with Disclosure or organization efforts, it may become OBVIOUS who is **in your life for a reason**
- Invite others to a **private meeting to discuss** overall goals, mission, and vision
- Eventually begin **brainstorming and strategize** how to make more of an impact in your community, beyond just discussion meetings

# ET, UFO RESEARCH, PARANORMAL FOCUS

- Groups can have many **types of focus**
- **MUFON groups** are great to get involved in for research
- Emphasizing “**sharing experiences**” in your description can lead to much more paranormal type discussions and people
- Keeping a **mix of focus** helps gain members and keep people interested
- You should pursue **your own preferences** but **stay open**

# CE-5 CONTACT GROUPS

- Steven Greer's “**contact protocols**” have spread well  
<https://disclosurecolorado.org/ce5>
- Meditating under the stars is a much easier **way to see UFOs** than people realize!
- UFOs appear in the manner that **people are ready for**, but are extremely sensitive about egos and fear, etc.

# METAPHYSICAL GROUPS – LESS “DISCLOSURE”?

- **Metaphysics topics** can grow a community of open minded people more quickly, people have many different interests
- **MANY metaphysics categories** to form events around: Past Life discussion, Tarot, Reiki/Energy Work, Numerology, Astrology, Psychic/Intuitive related, Shamanic, Tapping, Sound/Tone/Frequency healing
- Straight out talk about religions, **spiritual philosophy**, all manner of understanding divinity are great ways to grow your group
- Metaphysical **training** can be fun...

# METAPHYSICAL TRAINING MEETINGS

- Options for **reading** each other
- Games for **sending energy** and feeling it
- Games for **remote viewing** that which is hidden (CE-5 tie in)
- Reiki healings, direct **energy healing** – ask if people have extra tables
- Many types of **meditation, breathwork, Yoga**

# PRACTITIONER PROMOTION

- Events/Groups can chose to **promote or not promote** the businesses of members
- **Business cards**, email **newsletter** info, **special meetings** based around practice
- Lots of value for metaphysical practitioners who **often get little exposure** to the larger community
- The **primary issues** with too much promotion are with members thinking they are merely there to be **sold something**, or feeling they are **in competition** for business, and communities can become less inviting in **rare cases**

# THE MONEY QUESTIONS

- I recommend **not asking** for money for **most scenarios**, **free meetings** helps you know that the appearance of **cost isn't a reason** for lower attendance
- If you do need to cover **venue costs**, **be totally upfront** about it during the meeting and let people know **how to donate** (many terminology options)
- If you are needing to make extra money from the group, only ask if you feel that you can be **free from attachment to the result of actually making money**
- If someone is offering a paid class – remind them **asking for more** (donation or otherwise) **can lead to lower attendance**, but more interested people are the ones attending. Experiment with different amounts if you have to!

# PROBLEMS YOU MAY ENCOUNTER

- **Belief system incompatibility**  
Example: Some have negative ET experiences, some think negative ET information is entirely disinformation and misunderstanding
- **Sacred cow** belief systems in general
- **Individual agendas** – sometimes hard to detect, though often fleeting
- **Personality incompatibilities**, lack of respect for certain types of people

# THE CRITICAL ROLE OF ACCEPTANCE & RESPECT

- **Not everyone will get along**, this is almost guaranteed
- Having clear **group rules** that everyone agrees on gives you a way to kick people out in very specific circumstances – but they typically would **leave on their own!**
- Accepting **everyone in as equals** may seem like it makes some unhappy, but in reality your energy of acceptance can become contagious
- Showing **respect for everyone** can even be a process of **putting aside your ego and ambition** and recognizing the creator in everyone – **Trusting the universe** is crucial but extremely rewarding

# HELPING OTHERS GET ALONG DESPITE DIFFERENCES

- Remind people that “our **ability to get along**” is most important, “**agreeing to disagree**” as needed
- Remember that **being emotionally unaffected by conflict** serves as a great example for others – model universal acceptance
- **HOLD NO SACRED COWS** other than to work together towards disclosure
- Be sure to stay consistent with **your own inner work** and you will receive the guidance and support you need from within

# BELIEF SYSTEM IDENTITY DISORDER POSSIBILITIES

1. Identification with religious **belief** categories and ideas
2. Identification with **personalities** / people / information channels
3. Identification with **experiences**
4. Identification with **achievements** and personal contacts/connections
5. Identification with perceived **states** like "awakened" or "starseed"
6. Identification with **outcomes**, like a negative or positive (ascension) future
7. Identification with **thoughts/voices/feelings/emotions in your head**

**Recommendation: See the creator in all others, be the creator for all others**

# MY FULL DISCLOSURE ZOMBIE DREAM (2016)

# THE TOTAL MIRROR EFFECT (LAW OF ONE)

- 19.13 “The quickest way to learn is to **deal with other-selves**. This is a much greater catalyst than dealing with the self. Dealing with the self without other-selves is akin to living without what you would call mirrors. Thus, the self cannot see the fruits of its beingness. Thus, each may aid each by reflection.”
- 74.9 “The disciplined personality, when faced with an other-self, has all centers balanced according to its unique balance. Thusly the **other-self looks in a mirror** seeing itself.”

# ARE OTHERS ALWAYS A MIRROR?

- It depends on emotions - **emotions indicate** areas of **imbalance!**
- 42.2 “if there is seen in the being **a response**, even if it is simply observed, the entity is **still using the catalyst** for learn/teaching. The end result is that the catalyst is no longer needed. Thus this density is no longer needed. This is not indifference or objectivity but a **finely tuned compassion and love** which sees all things as love. This seeing elicits no response due to catalytic reactions. Thus the entity is now able to become co-Creator of experiential occurrences.”
- 42.4 Q: Would a perfectly balanced entity **feel an emotional response** when being attacked by the other-self?
- Ra: I am Ra. This is correct. The response is love.

# STAYING DETACHED BUT WORKING TOGETHER

- **Detachment** \*MIGHT\* indicate **balance**, assuming there is **also love**
- 8.1 Each entity will receive the **opportunity** that each needs.
- 18.5 The proper role of the entity is in this density to **experience all things desired**, to then analyze, understand, and accept these experiences, distilling from them the love/light within them. Nothing shall be overcome. That which is not needed falls away.
- 80.10 “an adept is one which has **freed itself more and more** from the constraints of the thoughts, opinions, and bonds of other-selves. Whether this is done for service to others or service to self, it is a necessary part of the awakening of the adept.”

# EMERGENCY CONFLICT CASES: FALLING BACK ON NATURAL LAW PRINCIPLES

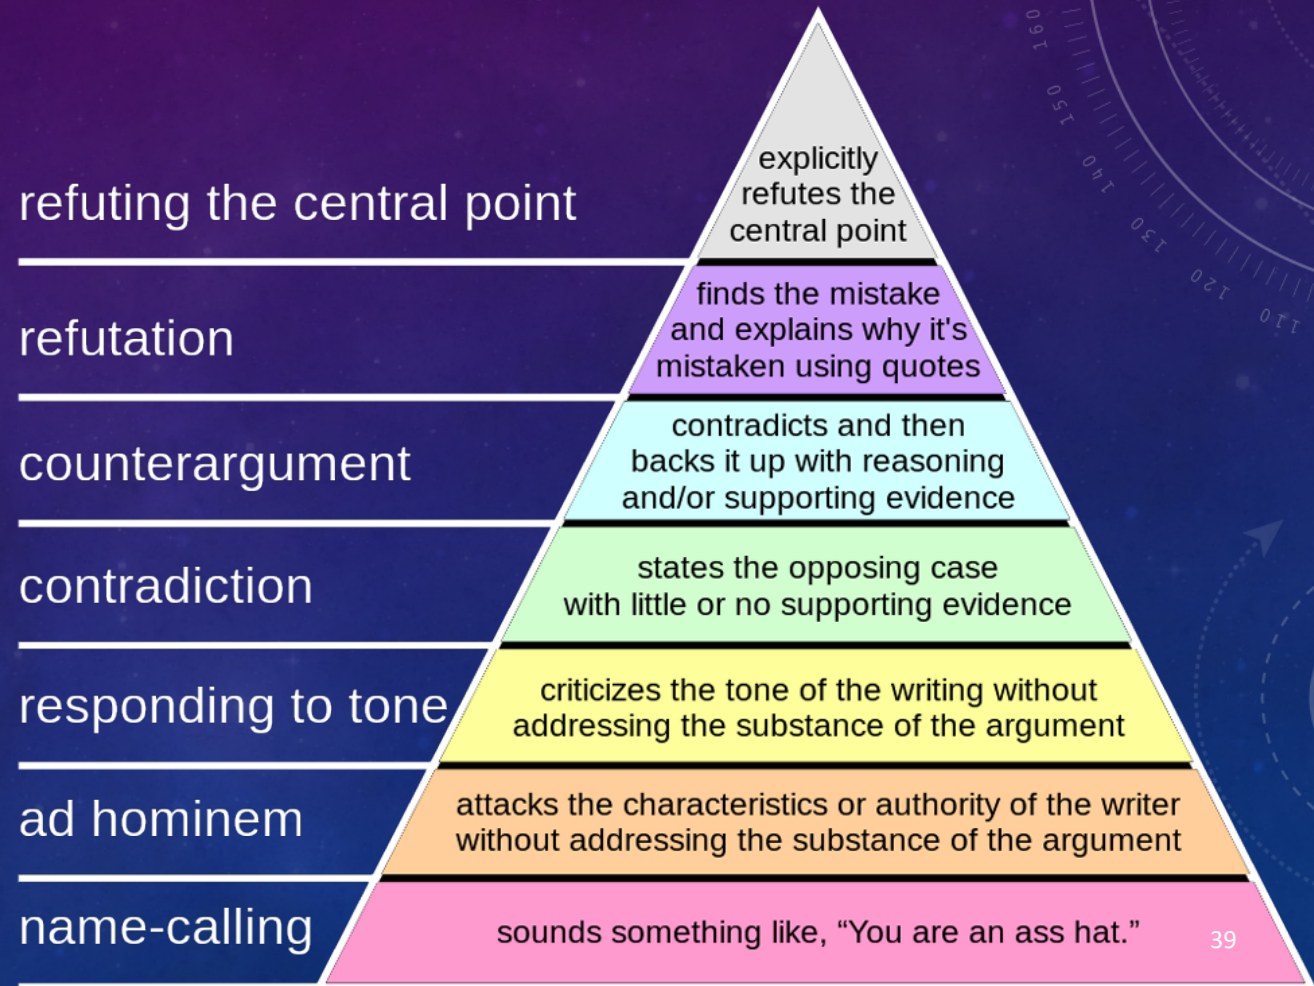

- Have faith that whenever **expression of forgiveness** is an option, it is the best option
- Don't use "**Should/Shouldn't**" directions with anyone – to keep in alignment with free will, offer recommendations **only if sought**
- If someone is upset with you and speaking, **wait to be asked** a question before speaking, or wait for the collective energy to be implicitly requesting you to speak. Then **speak only of love** and with respect for all, recognizing the creator within.
- Remember that any **negative perception is temporary**, any balanced and positive perception is closer to truth and therefore eternal

# PAUL GRAHAM'S DISAGREEMENT HIERARCHY

[www.howtodisagree.org](http://www.howtodisagree.org)

- Helpful with **online** communities especially
- Suggests **guidelines** for respectful discourse
- Provides options for setting **boundaries**

# SHARING ADVANCED KNOWLEDGE

- Clarify and make obvious **that others are free to their own beliefs**
- Get a sense of what people **already believe** before sharing the most difficult material
- Figure out areas **you may need to agree to disagree** by eventually discussing **the most controversial beliefs**, but **don't dwell** on anything for too long without **interest being shown**
- Always remember that some people **might not understand**, might **not ever believe** what you believe
- Be accepting of all beliefs, but recognize that a **group consensus may form** and sadly **some might not be able to continue** with the group as a result of **“sacred cow”** differences (sometimes VERY surprising!)

# GETTING OTHERS UP TO SPEED

- Mention **videos and links**, **collect emails** for sending out links to resources, consider **sharing the email list** for others to manage also – but be sensitive
- Start a **Facebook group** or online blog to share more information with your group
- **Share books!** Find out who reads the most and who has read the most already
- **Share DVDs** and burn DVDs
- Have **special events** just for watching and learning about specific topics

# DVD VERSUS ONLINE VIDEO

## Online Video

- More accessible to **younger generations**
- Easy to **share** links
- Sometimes harder to watch for **long periods**, harder to hook to TV for some
- Most helpful for generating **long term interest** in seekers (who find more videos)
- Free videos **can go down** randomly, and paid content is not easy to share

## DVD Videos

- Sometimes more accessible for **older generations** or lower income individuals
- People **expect longer videos** and are more likely to use their TV (generally)
- Lowest **common denominator** for sharing basic educational information
- Having something **tangible** can be a reminder to check it out
- DVD's can be **re-gifted** easily to more friends and family

# DVD IMAGE (FILE TO BURN) DOWNLOADING

- New resource for DVDs and fliers:  
[www.DisclosureInstitute.org](http://www.DisclosureInstitute.org)
- Requires a **BitTorrent** program to download
- Culmination of 3 years of work creating Disclosure **resources for groups**
- 14 DVDs currently available (more coming soon)
- The “Full Disclosure Introduction” DVD is useful for demonstrations as introductory wake up curriculum

# CONTENT VARIETY

**Different people are “awoken” by different content**

- Nuts & Bolts of ET and UFO evidence
- Bigger picture of situation on Earth
- Consciousness Science
- Spiritual and Metaphysical oriented content

# DVD BURNING – EASIER THAN YOU MAY THINK

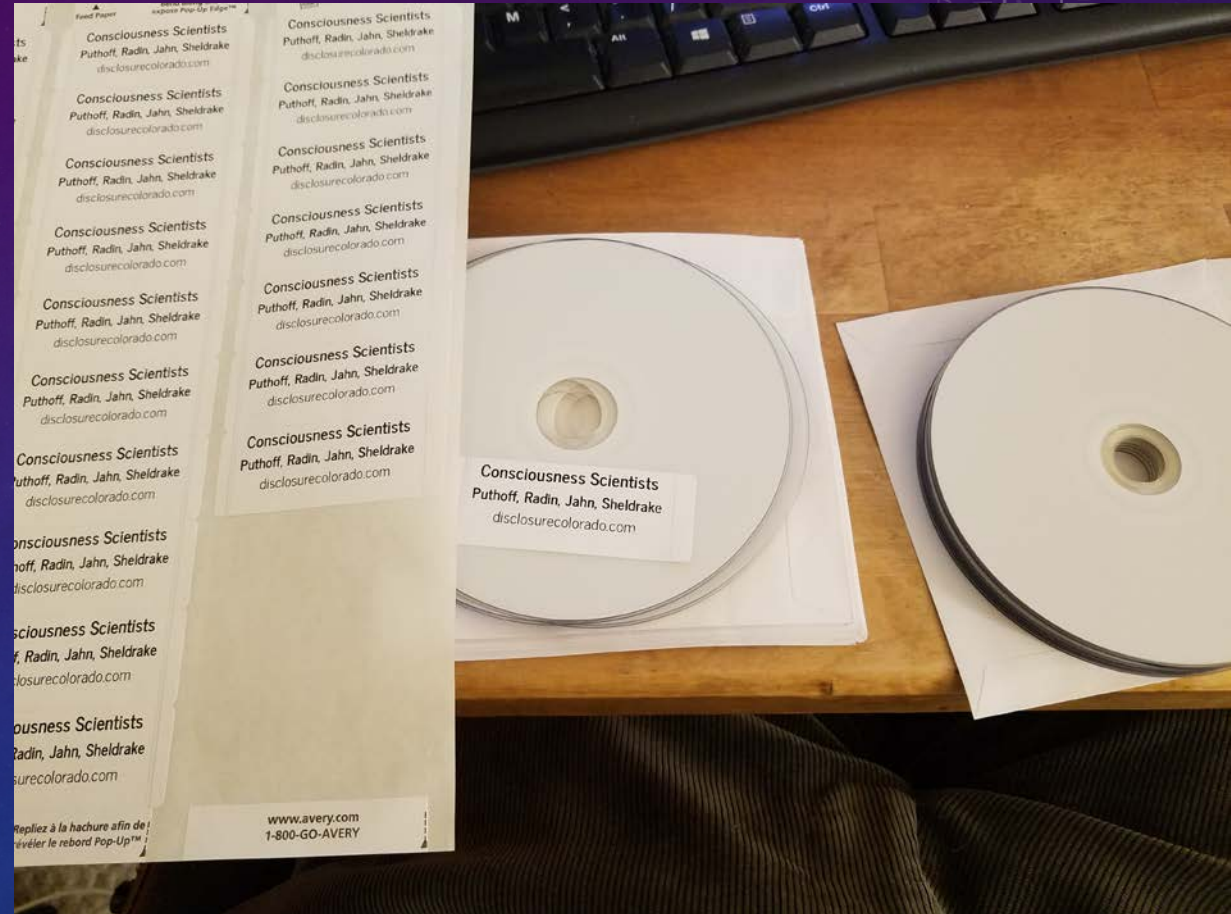

- By far **the easiest way** I have found to wake up others around me
- USB DVD burners cost around \$25
- DVD-Rs or DVD+Rs can be purchased 100 for \$25 (either type works fine!) – 25 to 30 cents per DVD)
- Software can make mass DVD burning convenient

# DVD LABELLING

- Standard **mailing labels** work great! Quicker than handwriting
- Download the **mailing label template** from the internet by searching for the **label code**
- “**DVD Sleeves**” are super cheap also (1000 for \$20)

# BE FLEXIBLE WITH PEOPLE AND CHANGES

- ALWAYS respect **people's time** and **THANK people** for helping and attending
- Be ready for change, **expect change** to happen suddenly
- Be flexible to **allow** for any **people to leave** the group or **take a break** at any time
- Young people can seem more **motivated** and **energized**
- Old people can seem more **dependable** and **consistent**
- Some people have **a lot of free time**. Some people have a **very busy life** that keeps them from attending regularly. **Everyone has a role** to play
- **Respect all paths**, don't make any conclusions based on the ages or types of people interested

# FORMING AN INNER CIRCLE OF ORGANIZERS

- Sometimes you have to form a **sub group** (or GROUPS) **within your group** to become more focused with organizing efforts
- A few people will be **far more interested** in outer pursuits (activism) or inner pursuits than others, that is VERY natural
- Strategize across the spectrum, but ALWAYS **PRIORITIZE MEDITATION** GROUPS
- Make sure that people feel **trusted, respected** and **valued** for what they can offer
- Discuss the **options** for **formal structures** (like nonprofit organizations with bylaws) and check [www.fdintl.org](http://www.fdintl.org) for updates and recommendations with organizational efforts

# NEW EARTH & DISCLOSURE ORGANIZATIONS

- Try gathering metaphysical practitioners - [newearthcouncil.org](http://newearthcouncil.org)
  - Intuitives offer great advice and guidance
  - Bigger vision with consciousness evolution
- Try gathering full disclosure action minded – [fdintl.org](http://fdintl.org)
  - Action oriented, attracts fascinating ET energies
  - Can help with very concrete consciousness shifts through knowledge distribution

# THE GURUS IN PLAIN SIGHT

- Find out who is **humbly** spending A LOT of time on **inner work**
- Helpful synchronicities and support become possible when **trusting people** who are **inherently magical**
- Professional **psychics** and **intuitive** can be more insightful than you would believe
- Sometimes **retired people** have the most time to meditate, recognize that **masters might walk around in plain clothing**
- ASK FOR **FEEDBACK, ADVICE**, and **GUIDANCE** whenever possible

# JUST GO FOR IT

# MAKE THE SIGNS BIG BUT BE VERY CAREFUL

- Consider two sided signs versus one sided signs carefully
- Having two sided signs gives you flexibility
- Signs made with shipping tubes are always legal, because they are a kind of cardboard
- Shipping tubes can be connected to cardboard using strong steel wire

# STAYING FOCUSED

- Always have some kind of **meeting or connection** with others locally at least **once per month** – twice per month is my recommendation
- Always include some **personal chats** and **friendships** with those in your group and maintain friendly connections
- Choose a **mission** and **goals**, and keep discussing them
- Keep **pursuing** what you **value**, and **remind yourself of your goals** – **write things down** if you have to

# CONCLUSIONS

- Always **be the change** you want to see
- Have **faith and trust in others** and that they are in your life for a reason, and that everything can work as **growth catalyst**
- If you can **get more involved** in your community, **don't wait**
- **Test yourself** and your limits, fake it till you make it if you have to
- 52.11 “**Let us remember that we are all one.** This is the great learning/teaching. In this unity lies love. This is a great learn/teaching. In this unity lies light. This is the fundamental teaching of all planes of existence in materialization. Unity, love, light, and joy; this is the heart of evolution of the spirit. The second-ranking lessons are learn/taught in meditation and in service... [but] the universe, its mystery unbroken, is one. Always **begin and end in the Creator, not in technique.**”
